Specialist System Individuals with over decades of experience in development, draft, structure, implementation and Continual Improvement initiatives completion projects with exposure to;

- Lloyds of London
- SABS
- TUV:SUD / Rheinland
- DQS
- SGS

These systems will be drafted specific to the scope, operations, locations and needs of the client.

Whether you need a small safety file or a properly integrated management system incorporated into your business. We will glove fit this to your needs and that includes pricing as all projects need to remain economically viable.

Waste Management Solutions & Recycling Innovations

- Our core focus and belief is “ Zero Waste to Landfill “.
- This drives our innovations to various recycling options dependant on your specific waste streams generated by your operations and how resources can be produced through these operations. Ask our expert team about this.
- In addition to this, we can and do offer full turnkey cradle to grave waste management operations. From skip placement, management, removal and replacement to the end result of landfill disposal certificate ensuring compliance to legal and ISO 14001 requirements.

Licensing of Operations triggered by legislation

- Whether the need be as small as the licensing of a small hazardous storage area dependant on local legislation at the municipality affecting your local geographical area, or as advanced as enquiring an independent Environmental Assessor to apply for waste, water, air emissions or effluent disposal at DEAT, we will be your partner in solution

Specalized Cleaning (Including High Angle & Spill Cleaning) & Facilities Management

- First and foremost, environmental spills will be readily attended to in line with legislation and advanced equipment making the process quick and comprehensive. Should it be required, we will also assist in the investigation and reporting process.
- Secondary, we have a stand-by team equipped for full facilities management including high angle cleaning such as Windows, etc. This is specialised teams and specialised equipment providing expert services.

Human Resources and Labour Relations

- Morukhukole will take upon representing the rights of any employee or employer that have been negatively affected by the direct misconduct or failure to comply to legislative rules binding on employees and Employers within RSA.

Whether it be just advice or full representation, we commit to you.

- Morukhukole also provide the services of sourcing skill sets in personnel placement in all areas of business specific to support staff department placings.

PPE, Branding & Corporate Gifting

- You need it, we'll get it!
